

On My Mind
6/15/01

Thank-you for visiting my web-site! Unfortunately, there is no column this week, due to the fact that I've been off-island all week attending an EPA-sponsored conference on Guam, and came back on Saturday with a rather debilitating case of one of those hard-to-define combinations of cold and flu, leaving me unfit to express anything on my mind other than aches and pains.....

Please come back next week - by which time I fully expect to have recovered enough to string coherent words together.....
